SFPD 235E (08/08)

San Francisco Police
Crime Scene Investigations Unit
Scene Observations/Notes

Case Number: 160-286-132 Location: 19th Street/ Shotwell Street

Date: 04/07/2016

Time: 1030

Officer: O'Connor # 336 *JO*

On 04/07/2016 at approximately 1030 hours, I responded to the area of 19th Street/ Shotwell Street on a report of an Officer Involved shooting incident. Officer Barr # 961, Officer Juco # 4121, Officer Kellogg # 1009 and Inspector Shouldice # 2054 of the Crime Scene Investigation Unit responded as well, to assist in the investigation.

Upon my arrival I met with Sergeant Alloise # 1303, who gave me a general briefing of the scene. I was informed that Officers had responded to the area on a report of a man with a knife. After contacting the man, one of the officers deployed the Extended Range Impact Weapon, ERIW, less lethal, super sock bean bag shotgun. Two officers then fired their duty weapons. The man was injured and transported to the hospital. He later succumbed to his injuries.

I completed a cursory walk through of the scene with Inspector Shouldice. The actual address of the crime scene was 3235 18th Street but the location was on Shotwell Street, 133 feet 8 inches north of the curb line of the south east corner of 19th Street and Shotwell. Yellow Crime Scene tape was cordoning off the intersection of 19th Street and Shotwell Street north, to the intersection of 18th Street and Shotwell Street. This area was being preserved and secured by numerous officers posted around the area. Pedestrian and vehicular traffic was restricted in the area. First responding officers had circled pieces of evidence, within the scene with yellow chalk and placed temporary white tented placards, marking evidence within the scene.

The east side of Shotwell Street at 19th Street consists of a two- story commercial P G & E building and parking lot. Shotwell Street runs north/ south with a single lane of traffic in both directions. There is a parking lane on both the east and west side of Shotwell Street with

6049

SFDPA - 0179-14 - 000084

O'CONNOR # 336

M

numerous parked cars on both sides of the street. There were several camping tents (homeless encampment) erected on the east sidewalk of Shotwell, north of the crime scene between 18th Street and 19th Street. This encampment area included tents full of items, shopping carts, bicycles, clothing, debris, paint cans, and garbage.

Officer Kellogg, Officer Barr and I replaced all the white placards with Yellow, numbered crime scene cones. It should be noted that evidence items #9 and # 14 had rolled a few inches outside of the yellow chalk circle due to a light wind that was blowing (see photos). After placement of all the evidence cones, Officer Barr began documenting the scene with video, as I documented it with photographs. Officer Juco and Officer Kellogg began measuring the scene and all items within for later documentation in a diagram.

There was a large blood pool (marker # 13) on the east sidewalk of Shotwell Street along with clothing that had been cut by responding medical personnel. On the sidewalk in this area were numerous items, including, beaded necklaces, medical debris, and a deformed bullet. Just east of this area, on the sidewalk, there were four super sock bean bags (markers #2, 4, 6 and 7). There were three super sock casings on the east sidewalk of Shotwell (markers #8, 9, and 11). There were three, 40 caliber cartridge casings on the east sidewalk of Shotwell Street (markers #14, 18 and 19) and four in the street west of the east sidewalk (markers #10, 15, 16 and 17). There was a bullet fragment in the street (marker # 12). There was a large kitchen knife, on the sidewalk, south of the super sock cartridges (marker # 5). There was a copper jacket fragment and tan/black left glove on the east sidewalk of Shotwell Street (markers #1 and #3). The copper jacket fragment (marker #1) was the southernmost item measured, at 113 feet and 8 inches north of the south/east curb line at Shotwell Street and 19th Street.

There was a bullet defect (marked "A") in a garage roll up door on the east side of Shotwell Street approximately 106 feet north of the curb line of the south/east side of Shotwell Street and 19th Street, with a height measurement of one foot. This bullet defect created a shallow trench in the metal roll up door with a north to south directionality. There was a bullet defect approximately 9 feet north of this area (marked "B") in the concrete of the building separating two roll up doors with a height measurement of approximately 2 feet 6 inches. This bullet defect had

70F9

SFDPA-0179-14-000085

0-Connor #336

no discernible directionality. Approximately 8 feet north of this area, in a second roll up door was another bullet defect in metal (marked "C") with a height measurement of approximately 2 feet 9 inches. This bullet defect created a shallow trench with a north to south directionality.

There was a white Toyota Tacoma license [REDACTED] parked adjacent to the east curb line of Shotwell Street facing north approximately 133 feet north of the south/east curb line of Shotwell Street and 19th Street. There was a bullet perforation through the rear passenger sidewall of the tire, of this vehicle, and the tire was flat. There was a blood spatter pattern on the right front wheel/tire and fender of the Toyota. This blood spatter appeared to be diluted blood with circular droplets ranging from approximately 2mm to 4mm in diameter. The blood evidence and the bullet defect in the tire were photographed. The vehicle was towed to the Crime Scene Auto Impound for further processing by Officer Juco (see vehicle processing report by Juco).

There was a marked SFPD Ford Crown Victoria (vehicle # 095) in the street on Shotwell Street, facing south, approximately 186'6" north of the south/east curb line at 19th Street and Shotwell Street. This vehicle had an Extended Range Impact Weapon (ERIW) on the front passenger seat. I seized the ERIW for later documentation (see report by Sergeant Scanlan # 4209) . It should be noted that a super sock cartridge casing was recovered from the chamber of the ERIW, at the scene by Inspector Shouldice. There was a marked SFPD Ford Interceptor (vehicle # 230) in the street, on Shotwell Street, behind vehicle # 095, facing south approximately 213'2" north of the south/east curb line of 19th Street and Shotwell Street.

While at the scene I was informed by Homicide that a camping tent on the north/east sidewalk of Shotwell Street may have belonged to the deceased male. This tent was approximately 372'10" north of the south/east curb line of 19th Street and Shotwell Street. I seized a notebook from inside the tent along with a red canvas bag full of steak knives. Next to this tent was a shopping cart with miscellaneous items in it, including empty bottles and debris.

Inspector Shouldice, Officer Barr, and Officer Kellogg responded to Mission Police Station and seized Sergeant Steger # 2252 and Officer Mellone's #4249 firearms for later documentation. (See Officer Barr's

8 of 9

SFDPA - 0179-14 - 000096
O'CONNOR 338

reports). All items of evidence from the scene were collected and transported to the CSI impound for drying, processing and booking into the Property Control Division.

Scene Observations/Notes

Case Number: [REDACTED] Location: 19th Street/ Shotwell Street

Date: 05/21/2017

Time: 1140

Officer: O'Connor # 336

Handwritten signature and number 336

On 04/07/2016 I responded to 19th Street and Shotwell Street on a report of an Officer Involved Shooting. On that date the scene was processed and a subsequent crime scene report was generated. I reviewed the report on 05/19/2017 and noted that an item of evidence (13A bullet projectile) listed in the evidence inventory was not mentioned in the narrative of the report.

Item 13A, bullet projectile was discovered after measurements of the scene and evidence within were already taken. This item was photographed in place, recovered from an area near marker 13 (decedents clothing and medical debris/ gauze), collected and booked into evidence. See photos for clarification and exact location.

COMMENTS/ NOTES:
 Removed rear passenger tire with bullet defect. Upon examination of deflated tire, another defect was located on the other side of the tire. This defect appeared to be an exit defect due to the outward fraying of rubber and tread. I exposed the interior of the tire by cutting a small piece of the tire. I did not locate any bullet or bullet fragments. I inserted a trajectory rod through the entry defect and the rod aligned with the exit defect with ease. I took photos of the tire and trajectory rod in place to show trajectory path. I booked the tire at the CSI property room and transferred to the Property Control Division at a later date.
